

Closing Remarks

EuroBlight 2022, Monte Verita, Ascona, CH

10th Blight Workshop

Jersey 2004

‘The UK government is to relax the regulation of gene-edited crops to enable commercial growing in England.’

[bbc.com](https://www.bbc.com)

[Brexit paves the way for gene-edited crops](#)

[Ministers will relax regulation of gene-edited crops to allow their commercial growing in England.](#)

Euroblight Ascona – recurring themes

- Meeting the requirements of the Green Deal in Europe
- Fungicide resistance management
- Host resistance – vital and not fully exploited
- Decreasing chemical control options – need to understand how to deploy alternatives
- Understand pathogen populations
 - Global early warning system
 - Preparedness and not prediction
